

# Areas where COVID-19 has been shown to spread

➤ **At customer-facing restaurants, etc.**

➤ **At drinking parties or live shows**

➤ **In the house or car**

➤ **Through travel between areas with high infection rates, such as Tokyo**

**Keep the following in mind, and change your actions if necessary**

- **Infection rates are high among the younger generation.**

- **Risk of infection will rise with the increased travel during Obon.**

- **Some areas, such as islands, have a high population of elderly, with little access to medical facilities or transportation.**

## If you travel or go to a gathering...

- be sure to talk together beforehand about the risk of infection!

When you **talk to your grandpa**, wear a mask and sit a ways apart, ok?

Can we **avoid the three Cs**?

If we can't be safe, maybe we should just **visit online**

- and you can't avoid the risk of infection, don't go!

# Examples of High-Risk Situations

**Drinking party in a cramped location**

**Talking w/o masks  
(especially while eating)**

**Gathering in a closed-space for a long time**

**Contact with the elderly or  
those with pre-existing  
conditions**

# Special Requests for the Younger Generation

- Even if you don't have symptoms, always be aware that you might have COVID-19, and act accordingly.

- Wear masks at every gathering.  
~Enjoy your meal quietly,  
save the talking for later!~

- When you meet with elderly or those with pre-existing conditions, be extra aware of your health.
