

Prepare for heavy rains and check the Hazard Map!

Hazard maps show whether or not your home is safe when heavy rain falls. Prepare for water-related disasters and check the hazard map for your area!

 Hazard maps show the risk of disasters such as floods, tsunamis, landslides, and storm surges.

Hazard Map Portal Site (GSI)

<https://disaportal.gsi.go.jp/hazardmap/maps/index.html>

Click the button that says 「現在地を見る」 to view the map.

Select the type of disaster.

Click the 「現在地へ移動」 button to move the map to your current location.

Check the color of the map for your home, etc.

*Check the map when you are at home or locations you often visit.

*There is still a chance of disaster even if there is no color indicated.
